PROFILE

Software developer who loves working with others, problem-solving and learning new skills. I transitioned to coding when I realised that the programming aspect of my psychology research was what I enjoyed the most.

With my background in psychology and people-focused job experiences, I'm a natural team player who cares about my peers and performs well in collaborative teams.

TECH STACK

JavaScript, HTML/CSS, REST API, PostgreSQL, Git & GitHub, Ruby on Rails, Bootstrap, Heroku, UX/UI design on Figma. Currently learning React.

PERSONAL SKILLS

Eagerness to learn, team-oriented, able to work autonomously, creativity, resilience

HOBBIES & INTERESTS

Basketball, bouldering / rock climbing, guitar

MOST RECENT PROJECTS

ChurnIt

JavaScript • Ruby on Rails • HTML5 • CSS3 • Bootstrap • Heroku • Figma

ChurnIt helps users to find personalised credit card recommendations in seconds.

LearnIt

Ruby on Rails • JavaScript • HTML5 • CSS3 • Bootstrap • Heroku • Figma

LearnIt is a web app for posting and finding online tutoring sessions.

WORK HISTORY

English as a Second Language Tutor

Self-Employed

Feb 2021 - Mar 2022

- Independently planned and taught culturally appropriate (and fun!) ESL lessons via Zoom to primary school and adult students living in China.
- All three of my primary school students scored 100% on their end-of-term English examinations in 2022.

Disability Support Worker

Private

Oct 2021 - Feb 2022

- As sole carer on each shift, worked autonomously to provide empathetic support to a client living with an intellectual disability.

Bartender / Café Assistant

Vela 9 Inverloch

Nov 2018 - Mar 2021

- Working as part of a dynamic hospitality team, I provided excellent customer service in a fast-paced café.

EDUCATION HISTORY

Full Stack Web Development Bootcamp

Le Wagon Melbourne

Jan 2022 - Mar 2022

Ten-week full-time course focussing on Javascript, Ruby on Rails, CSS, HTML, SQL, and UX/UI design.

Bachelor of Arts (Psychology) (Hons.)

Monash University

Feb 2017 - Nov 2021
